Awards and Recognitions to WCRP Affiliated Scientists

06.06.2012

Carolina Vera - JSC Officer
Received the 2012 "Emilio Caimi" prize issued by the Argentinian Meteorological Center for her scientific contributions to atmospheric science.

Sandrine Bony - WGCM Co-chair
Received the 2012 AMS "Bernhard Haurwitz Memorial Lecturer" award for her contributions to the understanding of the clouds processes and their impacts on the Earth's climate.

Anne Thompson - past member of SPARC SSG
Received the 2012 AMS "Verner E. Suomi" award for exceptional vision and leadership in deploying technologies that have significantly advanced the understanding of ozone dynamics in the atmosphere.

Chris Bretherton - Co-chair of GEWEX Global Atmospheric System Study
Received the 2012 AMS "Jule G. Charney" award for fundamental contributions to our understanding of atmospheric moist convection, particularly the discovery of mechanisms governing the transition from stratocumulus to shallow cumulus convection.

William Kustas - Active in GEWEX Large-Scale Hydrometeorology Studies
Received the 2012 AMS award for Outstanding Achievement in Biometeorology for his tireless leadership and unparalleled contributions to the science-based application of remote sensing to estimate evapotranspiration and vegetation stress.

Hugh Houghton - Co-Chair of GEWEX Polar Cloud Project
Received the 2012 AMS "Henry G. Houghton" award for wide-ranging contributions to improving the understanding and modeling of cloud microphysical processes.

Ronald Stouffer - Chair of CMIP Panel
Became AGU Fellow 2012 for his path-breaking development of coupled atmosphere-ocean climate models and their use in research on the oceans role in climate change.

David Neelin - past member of the CLIVAR Pacific Panel
Became AGU Fellow 2012 for seminal contributions to our understanding of tropical climate variability, including El Nino.

Christian Kummerow - Chair of GEWEX Data and Assessments Panel
Became AMS Fellow 2012
