

BG3: Earth System Science Frontiers/Interdisciplinarity

Why do we need a broad, **interdisciplinary** early-career community?

Ex.1: WATER AVAILABILITY

Ex. 2: HEAT RESISTANCE

Which topics require interdisciplinary science? How can we work together in such an environment? How to connect disciplines that cannot work together efficiently? When does interdisciplinarity become a user-client relationship?

BG3: Earth System Science Frontiers/Interdisciplinarity

What are Earth system science frontiers?
