

The Global Observing System for Climate

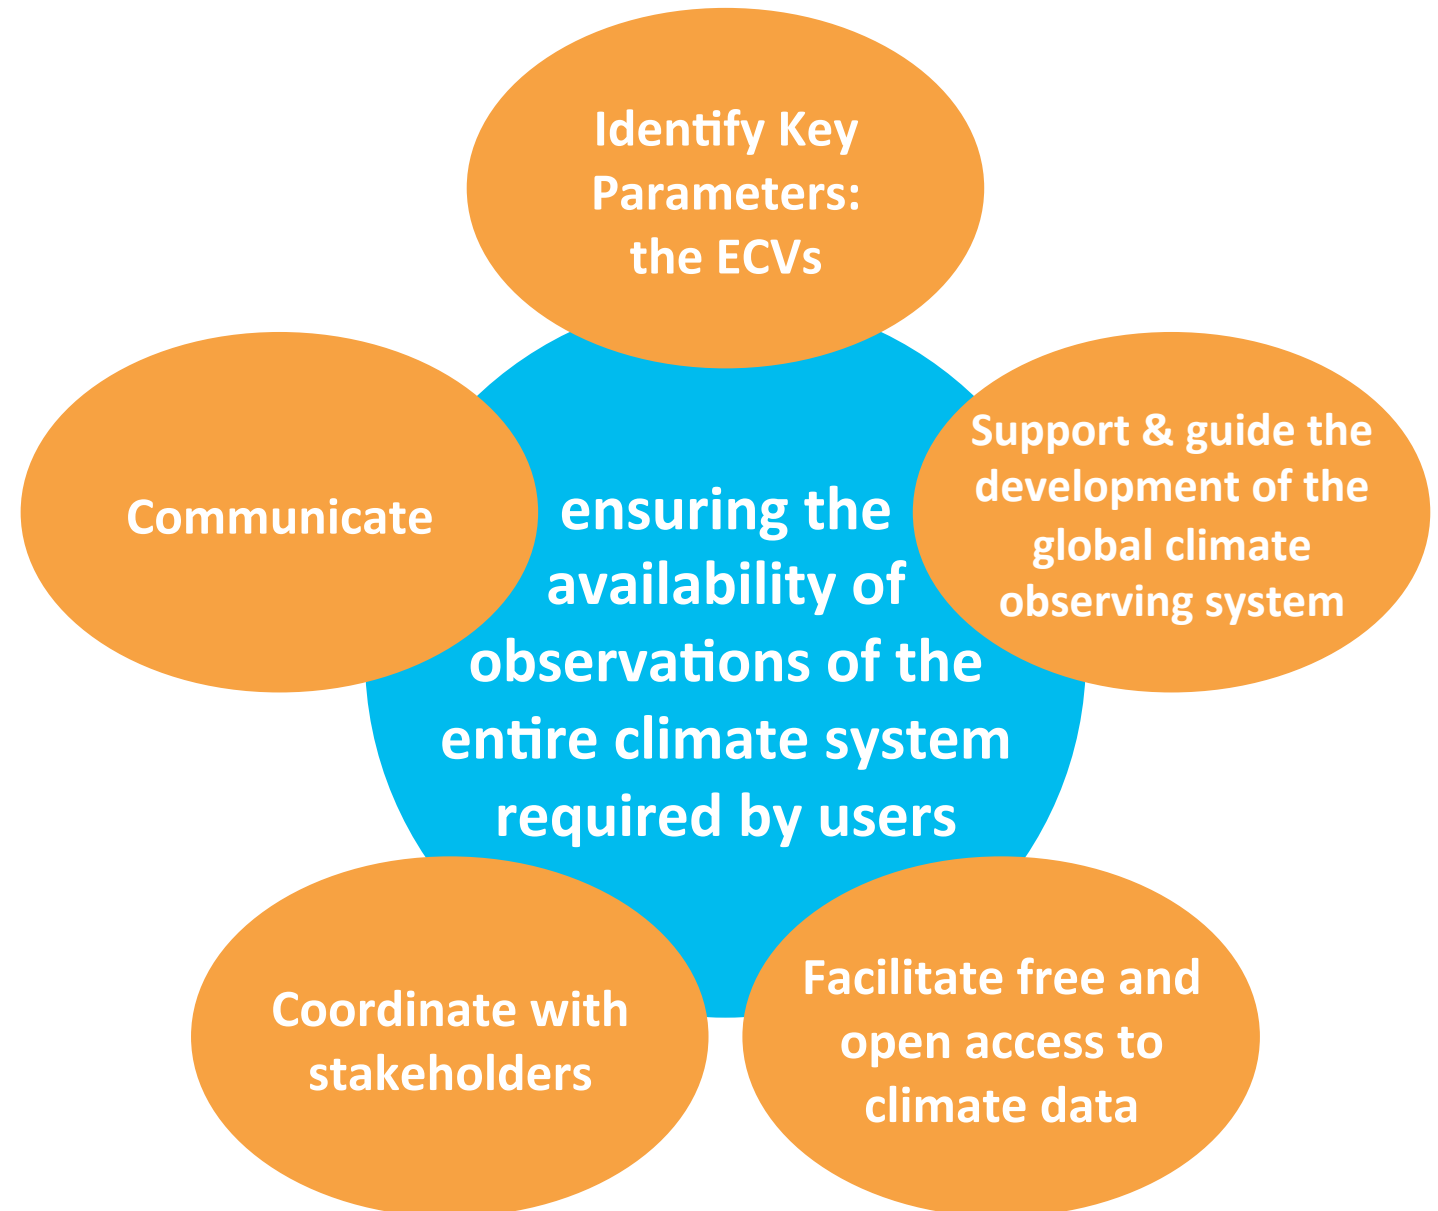

Update

*Essential climate variables, indicators and actions in the
2016 GCOS implementation plan to support the Paris Agreement goals*

WCRP JSC
Paris, April 4th April 2017

Performance Indicators (tbd)

- Availability of data, ECVs with global datasets;
- Coverage of observations of ECVs;
- Reports on adequacy of observing systems
- Preparation of plans to address gaps and deficiencies;
- Use of data in climate services, assessments and adaption planning
- ...

GCOS Implementation Plan

Implementation Aims

COP22 decided on GCOS (19/CP.22)

COP plenary (CMP plenary to start upon completion of the COP plenary)

Organizer: UNFCCC

Date: November 17, 2016 19:00 +01:00

Location: Plenary 1 Marrakech

Audio language:

Floor

English

Arabic

Agenda

Conference of the Parties (COP)

Essential
Climate
Variables

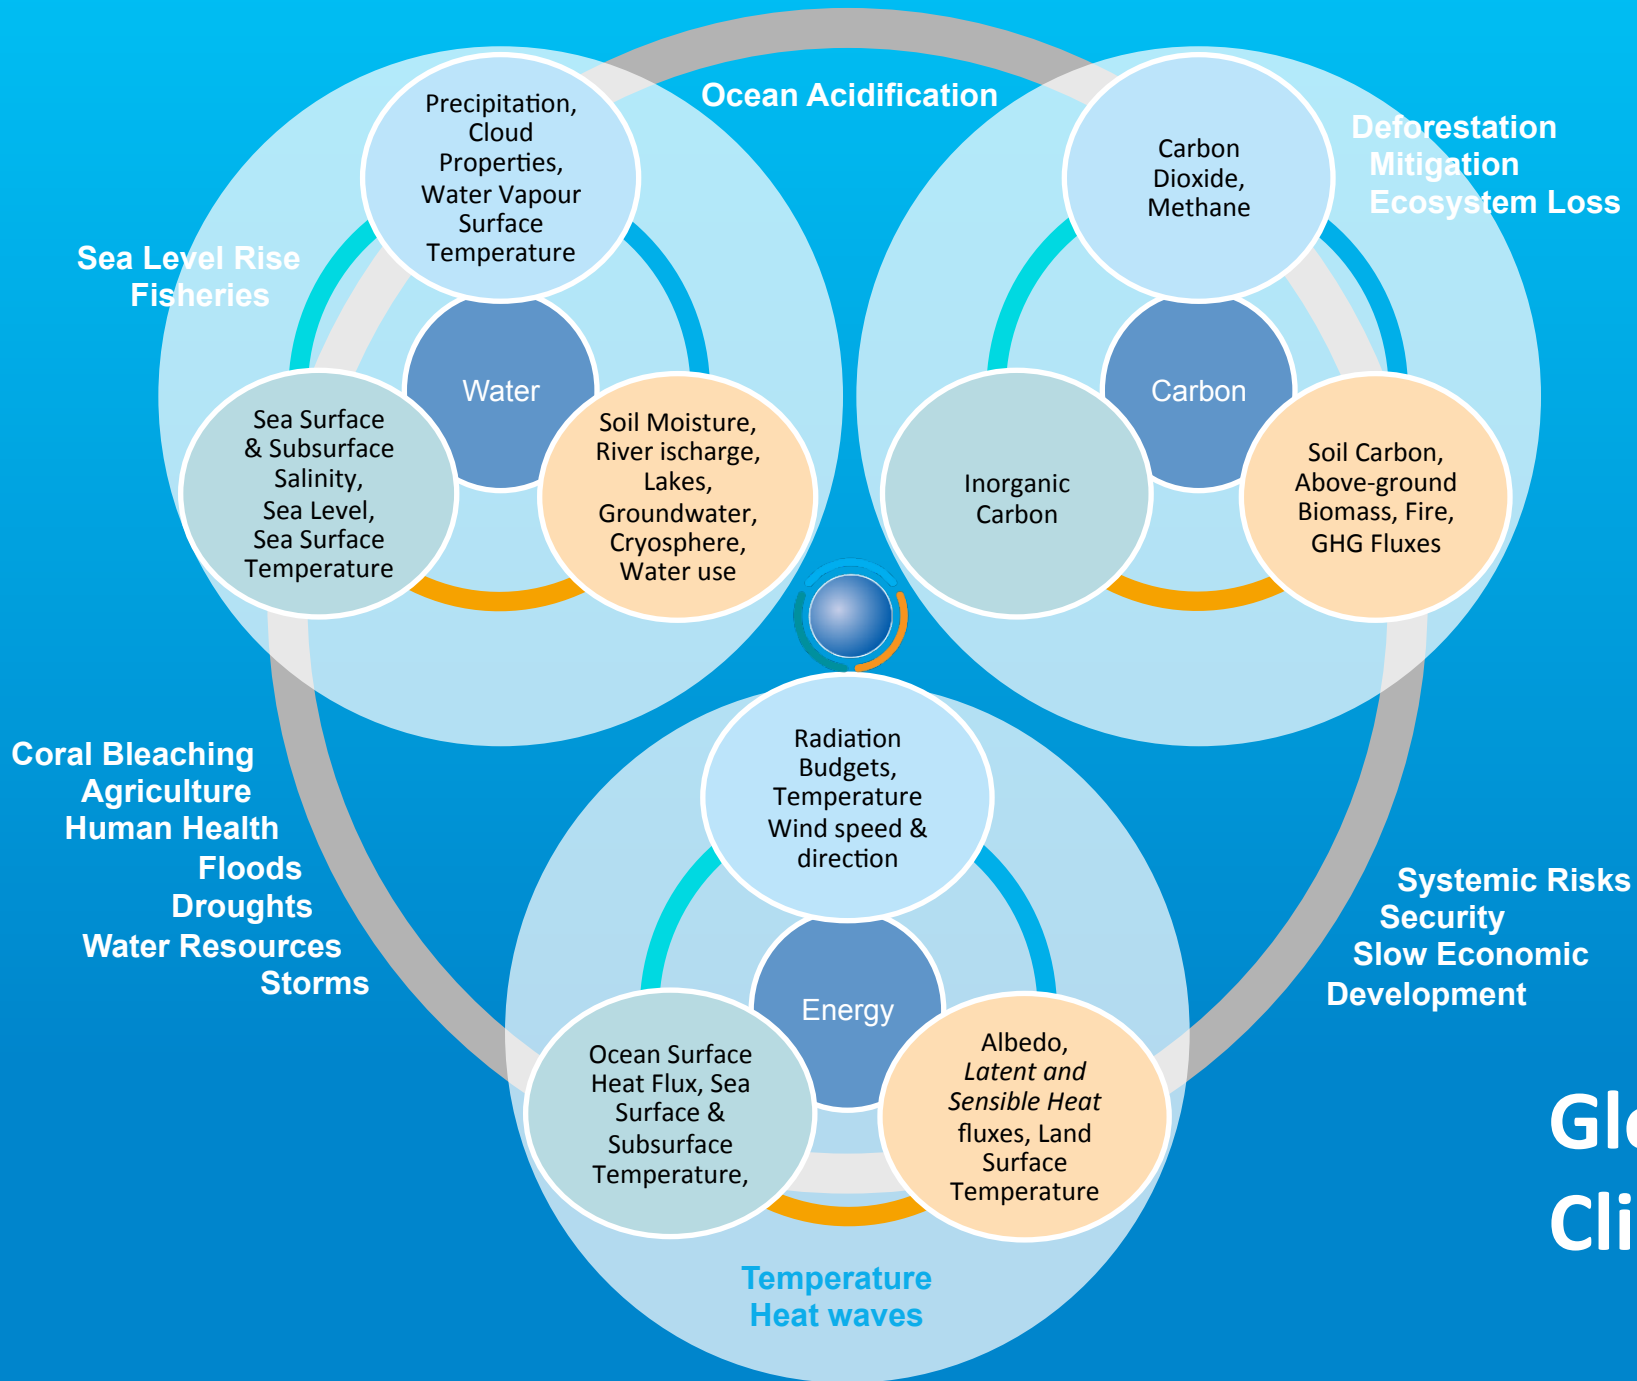

III

Emphasis on
networks in
developing
countries

IV

Climate Indicators

V

Possible Climate Indicators

Topic	Headline Indicator
Temperature and Energy	Global surface temperature, OHC
Atmospheric composition	Atmospheric CO2 (ppm)
Oceans	Sea Level Rise
Cryosphere	Sea Ice Extent
	Area of land covered by snow and Ice
Land use/ vegetation	Deforestation (area per year) ?
Extremes	Heatwaves +/-or
	Extreme Rainfall+/-or
	Drought...

Role of Science Panels

- Main Objectives:
 1. **Assessing the current state of the global observing system** for climate, and identifying its gaps and inadequacies and designs to ensure long-term monitoring;
 2. **Advocating and promoting** the establishment and enhancement of **the systems** required to provide long-term and consistent data; securing the implementation of designated GCOS networks;
 3. **Promoting** the transfer and accessibility of **data to the user community**.
 4. **Identifying measurable key variables** that control the physical, biological and chemical processes affecting climate, and are indicators of climate change;
 5. **Coordinating activities** with other global observing systems, panels and task groups to ensure the consistency of requirements with overall programmes.
- Responsible for overseeing “their” actions
- Panels have flexibility in how to do this BUT there should be consistency in the outputs and timeline

GCOS Steering Committee

Chair: Prof Stephen Briggs

GCOS Secretariat

Director: Dr Carolin Richter
JPO: Dr Valentin Aich
Assistant: Magaly Robbez

Atmospheric Observation Panel For Climate (AOPC)

Chair: Dr Kenneth Holmlund
Deputy Chair: Prof Philip Jones
Secretariat: Dr Caterina Tassone

Ocean Observation Panel For Climate (OOPC)

Co-Chair: Dr Bernadette Sloyan
Co-Chair: Prof John Wilkin
Secretariat: Dr Katy Hill

Terrestrial Observation Panel For Climate (TOPC)

Chair: Prof Wolfgang Wagner
Secretariat: Dr Simon Eggleston

GCOS Cooperation Mechanism

Network Manager: Tim Oakley
