40th Anniversary Symposium

**Sunday, 8 December 2019
8:30 - 18:00**

The World Climate Research Programme (WCRP) is celebrating its 40th year of international climate science. We invite you to join us for a Symposium, which will showcase the many successes of our community over the last four decades and highlight some of the challenges and opportunities that climate science faces now and will face in the future.

The Symposium will include sessions on:

- Celebrating 40 years of WCRP in Service to Society
- Understanding the Climate System Components and their Interactions
- The Launch of WCRP's Future

The full program will be available at the end of September 2019 on the Symposium webpage.

The WCRP 40th Anniversary Symposium will launch a series of sessions and events at the AGU Fall Meeting 2019 that will together form the WCRP Climate Science Week. We invite you to attend the WCRP town halls, union session and co-sponsored science sessions. Also, visit us at booth 223 in the AGU exhibition hall.
