Earth System Science Frontiers in the 21st century

Defined by YESS and further described in the YESS white paper

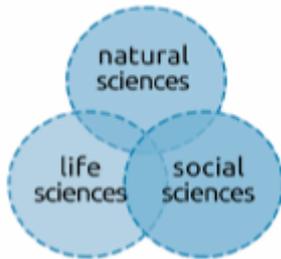

User-driven science

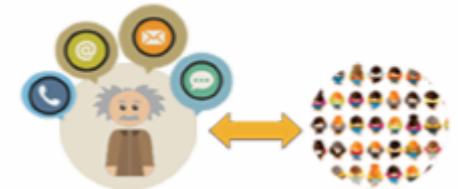

Scale-aware & seamless predictions

Interdisciplinarity

Robust communication

Rauser, F., Alqadi, M., Arowolo, S., Baker, N., Bedard, J., Behrens, E., Dogulu, N., Domingues, L.G., Frassoni, A., Keller, J. and Kirkpatrick, S., Langendijk G., Mirsafa M., Salauddin, M., Sonntag, S., Naumann A.K., Osman, M., Reed, K., Rothmuller, M., Schemann, V., Singh, A., Tummon, F., Dike, V., Villafuerte M.Q., Walawender J.P., Zaroug, M., 2017. Earth System Science Frontiers: An Early Career Perspective. *Bulletin of the American Meteorological Society*, 98(6), 1120-1127.

I. Fundamental understanding

Continued effort on process understanding

Complex processes (e.g. snow, precip, carbon)

Biases & uncertainties

Across time and spatial scales

New observational methods

Evaluation and quality assessment

Integration with climate studies

Data sparse regions

Langendijk, et al. 2019. Three Ways Forward to Improve Regional Information for Extreme Events: An Early Career Perspective. Frontiers in Environmental Science.
Rauser, et al. 2017. Earth System Science Frontiers: An Early Career Perspective. Bulletin of the American Meteorological Society

II. & III. Near and long term climate evolution

Seamless predictions

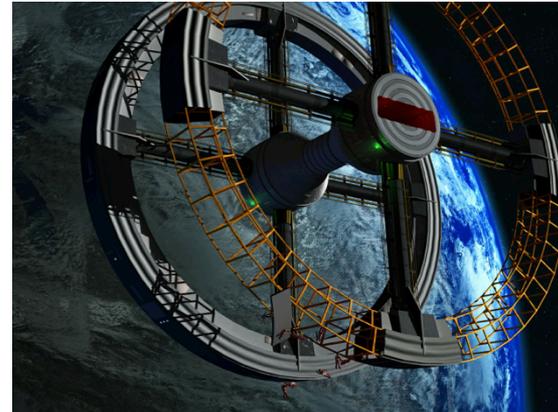

Human component in (ES)M

Collaborative modelling approach

Climate engineering

Langendijk, et al. 2019. *Three Ways Forward to Improve Regional Information for Extreme Events: An Early Career Perspective. Frontiers in Environmental Science.*
Rausser, et al. 2017. *Earth System Science Frontiers: An Early Career Perspective. Bulletin of the American Meteorological Society*

community

IV. Science for society

Consolidation of post-processing data and information at different scales and for different users

Credibility and open access to data, publications and knowledge

Embrace inter-to-transdisciplinarity

Langendijk, et al. 2019. Three Ways Forward to Improve Regional Information for Extreme Events: An Early Career Perspective. Frontiers in Environmental Science.

Advancing early career engagement

How do we foster careers in an interdisciplinary setting retaining a disciplinary foundation?

How do we evaluate scientific excellence?

Jørgensen, P. S., Evoh, C. J., Gerhardinger, L. C., Hughes, A. C., Langendijk, G. S., Moersberger, H., Jay Pocklington, J., Mukherjee, N. 2019. Building urgent intergenerational bridges: assessing early career researcher integration in global sustainability initiatives. Current Opinion in Environmental Sustainability, 39, 153-159.
