

IDAG and ETCCDI (more acronyms)

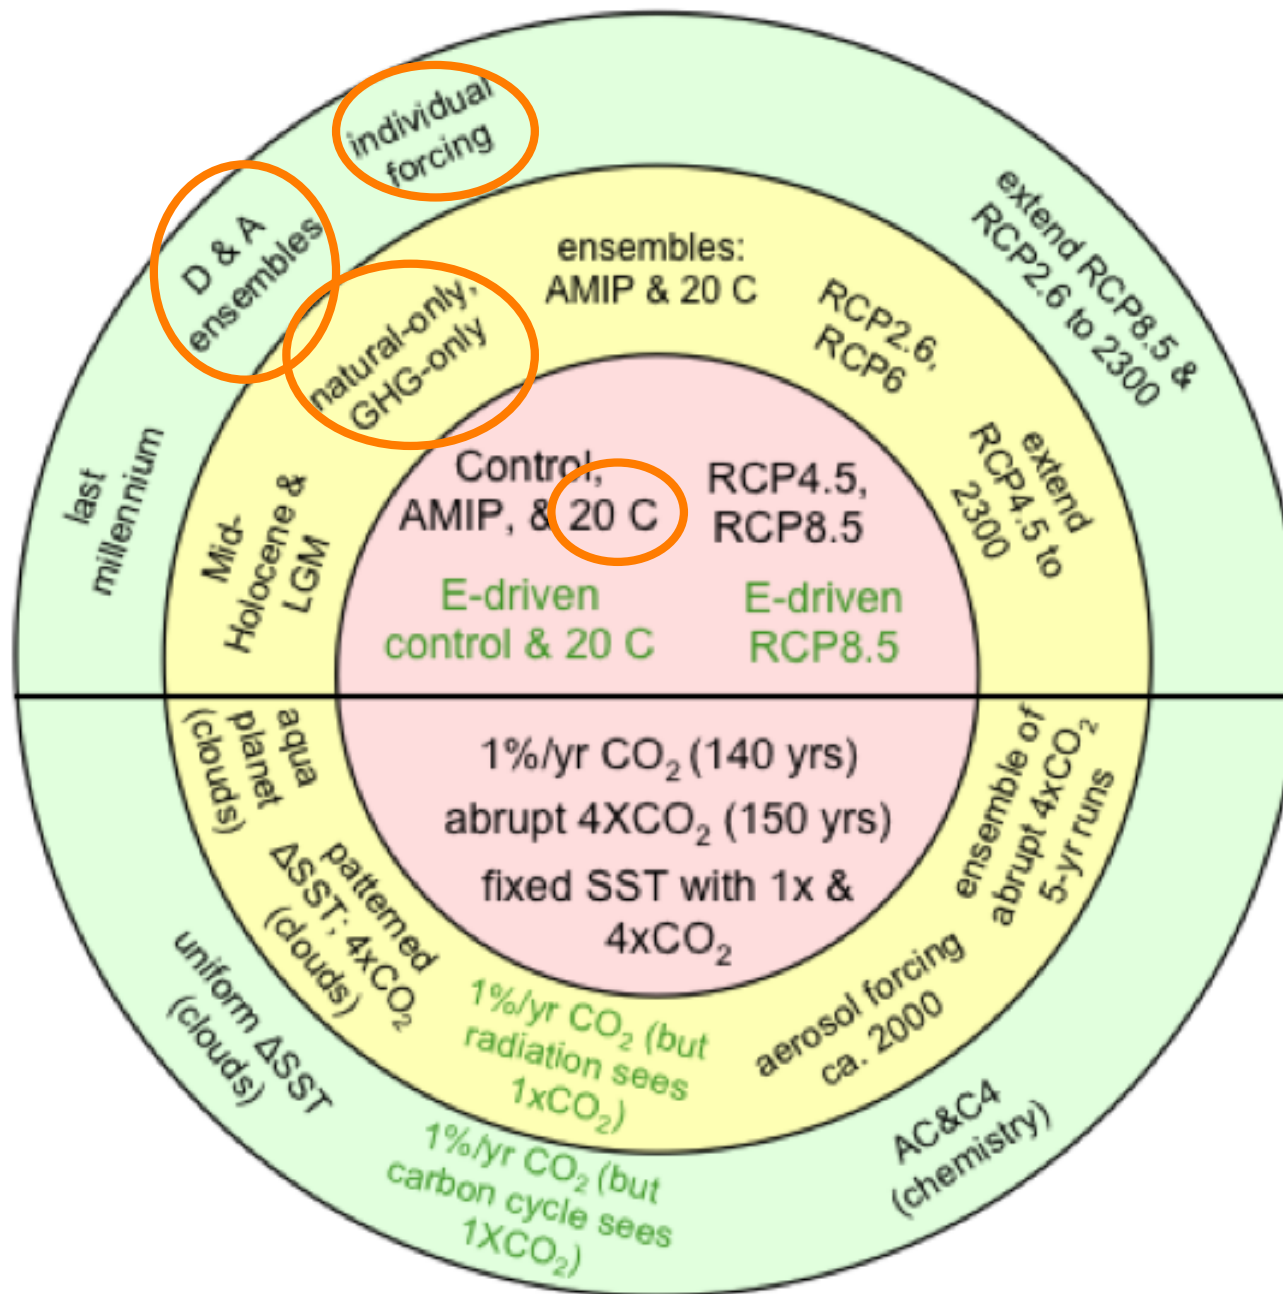

IDAG - International Detection and Attribution Group

- New funding from US DoE and NOAA from Oct 2010 for annual meetings
- Current Chairs: Claudia Tebaldi, Michael Wehner and Gabi Hegerl
- Next meeting: Feb 1-3 2012, Boulder
- IPCC AR5 involvements as both CLAs and 4 LAs for WGI chapter 10; LA for WGII chapter 18

THE UNIVERSITY OF
MELBOURNE

CMIP5 20C D & A runs

Core: 20C runs
1860-2005

(17 models)

Tier 1: Nat only (9),
GHG only (8)

Tier 2: individual
forcings (1),
ensembles of runs

If possible, extend
D&A runs to 2012
using any RCP

From Taylor
et al. (2011)

THE UNIVERSITY OF
MELBOURNE

WMO CCI ETCCDI

- Expert Team on Climate Change Detection and Indices
- Chair: Xuebin Zhang
- New global observational dataset for Frich extremes indices being prepared by Lisa Alexander
- Frich indices will be computed from daily data from CMIP5 model output using the same code (unlike CMIP3) at CCCma
